

NEW CRUISER
QUEEN OF NAVYPennsylvania of United States
Navy Has Trial

STARTING FROM ROCKPORT

New Ship Reached an Average Speed in
Course of 88 Miles of 22 and
75-100 Knots Per
Hour.

Rockport, Mass., Nov. 23.—The new cruiser Pennsylvania had her speed trial over the Cape Ann course today. The weather was thick but the sea smooth, and there was little wind. The big vessel crossed the starting line at 5:54 a. m. and finished at one o'clock. If shore observations are correct she made an average speed over the entire course of 88 miles of 22.75 knots per hour. This makes her the queen of the navy.

THE NAN PATTERSON CASE.

The Coroners Physician Given a Rigid
Examination.

New York, Nov. 23.—At the morning session of the trial of Nan Patterson, Dr. Opanian, the coroner's physician, was put under a severe cross examination regarding the course of the bullet and condition of bones, tissues and organs of Caesar Young's body, as found by the witnesses at the inquest. The prosecution then moved that all answers regarding Dr. Opanian's opinion as to whether the case was one of suicide or homicide at the time of the inquest be stricken from the records and Judge Davis granted the motion. The defense noted an exception.

BIG STORM CONTINUES.

Northern Part of England Is Enveloped
In the Grasp of the Elements.

London, Nov. 23.—The blizzard which yesterday and the night preceding swept over the northern part of England, stalling trains and otherwise interrupting traffic, continued today. Traffic in that direction is still badly disorganized, while a number of trains have been derailed. The Carlisle express, which should have left for London at 4:30 yesterday afternoon, did not get away until two this morning. The blizzard is now spreading to the south. A very heavy fall of snow occurred at Cornwall and other points.

WORST VOYAGE EVER.

Liner Oceanic Hobbled Into Queenstown
Seventeen Hours Late.

Queenstown, Nov. 23.—The White Star liner Oceanic arrived today, being seventeen hours late. The big liner was obliged to slow down for two days as a result of the terrific gales. It is the worst voyage the vessel has made since being launched.

SAFE FROM LYNCHING.

Negroes Have Been Removed From An-
noyance by Kentucky Mob.

Lexington, Ky., Nov. 23.—Garfield Smith and John and Edward Taylor, colored, yesterday were taken under heavy guard to Yarnall station, seven miles from the city and there not aboard a train for Louisville, where they will be kept until their trial here. The Rev. R. D. Kirkwood yesterday started a fund to buy a home for the widow and ten orphans of the murdered white man, and an effort to raise a large sum will be made. The finding of six negroes armed with shot guns on the outskirts of the city shows there is an ugly feeling. However, negro preachers and other colored persons are doing their utmost to keep down the race feeling, deploring the acts of the murderers and counseling deference to the whites.

BIG ORDERS FOR GUNS.

Naples, Nov. 23.—A private message from Berlin says that extraordinary activity is on at the Krupp factory at Essen; 27,000 men are working night and day, filling huge orders for cannon and projectiles; 200,000 grenades are now ready for delivery. The destination of these munitions of war is kept a strict secret.

Arrests Likely.

Denver, Col., Nov. 23.—Republicans last night secured the arrest of eighteen more Democratic officials, on the charge of violating election laws. The prisoners were taken before United States Commissioner Caperton, who placed the bonds at \$2,000 each. The officials all served on election day in precinct eight of the fifth ward and precinct three of ward eleven. The portion of the federal statutes under which they were arrested for intimidating is the old "Force Bill."

More arrests were promised by the Republicans. Affidavits which were presented showed that eight men each voted from 25 to 30 times in one ward.

WEDDING COINCIDENCES.

Rutland Lady Married Today at Time
Her Brother Was Married in Illinois.

Rutland, Nov. 23.—At exactly the same moment, 12 o'clock today, when Miss Lorraine C. Russell, daughter of Mr. and Mrs. George P. Russell of Woodstock avenue, this city, was being united in marriage to Horace F. Hulet of Boston at the home of the bride, Ernest H. Russell of Morris, Ill., formerly of this city, a brother of Miss Lorraine Russell, was being married at Morris, Ill., to Miss Edith L. Temple of this city, daughter of Mr. and Mrs. John C. Temple of Summer street. Both weddings had been planned to take place in this city at the home of Mr. and Mrs. Russell, it being the 31st anniversary of the wedding of the latter couple. Their son, Ernest, was taken seriously ill a few weeks ago and had not recovered sufficiently to come East for his wedding so Miss Temple went to Morris, in order to have the affair take place at the time planned.

The wedding in this place was largely attended. Rev. Gibbs Braslin officiating. Miss R. Alice Rapson of Saratoga, N. Y., was the bridesmaid and Dr. Frederick B. Nowell of Chester was best man. Mr. and Mrs. Hulet will reside at Salem, Mass. At the wedding in Morris, Ill., the Rev. George A. Swift, pastor of the local Congregational church, officiated. Mr. and Mrs. Russell will reside at Morris.

The Proctor's Annual Lay-Out.

Rutland, Nov. 23.—The Vermont Marble company today carried out their traditional custom on the day before Thanksgiving by giving to each of their employees the necessary materials for a Thanksgiving dinner.

For the families at Proctor village about 1000 turkeys, 40 bushels of cranberries, 50 barrels of sweet potatoes, and corresponding quantities of other ingredients for the meal were required, and it is probable that fully as many more were distributed at the company settlements at West Rutland and Center Rutland.

Resolutions on M. Marron.

At the meetings of Barre Branch, G. C. N. U., and Tool Sharpeners, No. 2, the following resolutions were adopted. Whereas, It has pleased the great architect of the universe to remove from our midst our late distinguished fellow-citizen, Michael Marron;

And, Whereas through the many services rendered by him in his lifetime, it is obligatory on organized labor in Barre to make fitting recognition of his many principles and unflinching devotion to organized effort for the uplifting of humanity, so firmly and unselfishly demonstrated in Barre during the look-out of 1892 when friends were few and wants were many, by his placing his stock of provisions at the service of, as well as pledging his credit for the maintenance of the cause we strove to uphold.

We place on record our appreciation of his many strength in standing alone amongst the merchants of Barre. We reverence his humanity in his stating that while he had goods on his shelves or credit at his command the needs of union men would be supplied, money or no money, or whether they owned homes or not.

Therefore be it Resolved, That to the memory of our deceased friend, Michael Marron, organized labor owes a debt of gratitude beyond the power of payment.

Resolved, That in humble recognition of the patriotic and many acts of the deceased his funeral be attended by committees representing the Granite Cutters National Union, The Barre Branch of G. C. N. U., and Tool Sharpeners, No. 2, G. C. N. U.

Resolved, That a copy of these resolutions be transcribed in the record books of Barre Branch and Tool Sharpeners, No. 2, and that a copy of the same be given to the widow and son of the deceased, and published in the Barre Daily Times and Burlington Free Press.

Be it further resolved that a suitable funeral design be secured in token of the esteem of united labor, and the chapters of both bodies be draped in black for thirty days.

Ray Curtis, Harold Swasey, Vincent Bates and Thurman D. returned this noon from U. V. M. at Burlington to spend Thanksgiving.

SECOND TEAM
FIRE HORSESAldermen Vote Last Evening
to Purchase.

WILL BE USED ON STREETS

City Is Asked by School Commissioners
to Remove Richardson Barn from
Rear of Church Street
School Lot.

For the further equipment of the Barre fire department a second pair of horses to draw apparatus will be purchased by the city, the purchase to be made by the chairman of the fire department, the chairman of the property committee and the chief of the fire department. One pair of the horses will then be used by the street department. This action was decided upon at the regular meeting of the board of aldermen last evening, at which all the members were in their seats.

The resolution authorizing the purchase was introduced by Alderman McKenna. The intention is to keep one pair of horses in the new station all the time, the other being used when necessary by the street department. A section of the resolution provides that the fire men who are drivers shall be constantly in charge of their horses, which means that the firemen shall work on the street whenever their horses are needed. Alderman McKenna stated that if the fire men were to be paid \$65 a month, this arrangement would be necessary to get the worth of them. Alderman Robins asked if it is necessary to purchase the second pair of horses now, and the introducer replied that it would be necessary before the completion of the new fire station, as a week or more is required to break in the horses. He said that in winter time particularly two pairs of horses would be needed as one pair could not make a long run with the chemical and then go back to the station for the hook and ladder truck. He also believed there would be a considerable saving in the teaming expense of the street department.

Alderman Burks, seconded by Alderman Albisetti, moved the adoption of the resolution. The committee will begin looking for horses but the purchase will be made subject to the approval of the city council.

Contractor C. L. Bugbee, who put in a bid for increasing the height of the tower on the new fire station to provide for the fire bell said that he would have nothing to do with the handling of the bell. His bid for \$400 covered the building of the tower. The matter of installing the bell was referred to the proper committee to execute a contract. When Alderman Adie reported for the property committee concerning the opera house scenery he also said that the committee found an unsatisfactory condition of affairs on the stage, the place being "dangerous" and a "fire-trap." He recommended a house cleaning at once. The committee ordered the removal of these articles and it was done yesterday. The stage carpet, although it was put down only 18 months ago, is in bad shape. Alderman Albisetti gave it as his opinion that two many young boys were allowed to handle the property. Concerning the scenery the committee reported that C. O. Averill had agreed to repair it for \$30.

The city hall has just been equipped with fire escapes, and the inspector of buildings recommended that the exits and windows leading to the escapes be marked with proper signs. The aldermen ordered the work done. Then a lively discussion was started over the fire escapes themselves. The set ladder does not reach to the ground, but when a spring on the lower platform is touched the last stretch of ladder slides down. Mayor Barclay thought that no woman would be able to manipulate the thing so as to get to the ground. Inspector Colburn stated that the escapes were of the pattern approved by the city of Boston.

A warrant to pay the Barre Savings Bank interest of \$2800 due December 1 next was read and ordered paid. A \$1,000 appropriation to the poor department, introduced by Alderman Albisetti, was passed on motion of Alderman Burke. David A. Sikes' petition to hang a sign on the Bolter block was referred to the street committee with power to act. The residents in the north end of the city want a water-trough for horses and they addressed a communication to the board last evening. The street committee will investigate the matter. The Standard Electric Company, which is rewiring the city hall, presented its bond for \$150 and it was voted to accept the bond when the surety is provided.

W. B. Stevenson's shoes are the cause of much correspondence and work. Mr. Stevenson is in the Waterbury asylum and he has worn out the last pair of shoes provided for him. The last of the shoe is so peculiar that it is practically impossible to make the pair of shoes. Five firms written to for prices summed up the situation in the question of one, "What is the matter with this man's feet?" The overseer of the poor will continue his efforts to get a pair of shoes to fit.

The school commissioners addressed a communication to the board requesting the removal of the Richardson barn, purchased by the city, from the Church street school house lot, in the rear. The

board heard the request and declared that the barn be moved as soon as the work could be conveniently done.

G. B. Sanguinetti was given permission to move the two-story building now located on the corner of Main and Seminary streets, to the lot between the Northern hotel and the Tomasi block, provided the building is veneered with brick. The building will be eight feet from the hotel, six feet from the block and 40 feet from the barn in the rear.

Several bids for street signs were opened and all were rejected save those of H. L. Averill and J. C. Crowley. The street committee will get further details and then let the contract. Nearly 250 signs will be ordered. They will not be set up until next summer.

Fred Perrin said he was ready to deed to the city East street extension and was told that when he has "worked it to its full width and brought it to a grade," the city will accept it. Mr. Perrin then referred to the bad condition of Elm street at the Park street crossing. The board agreed with him and said that the bad conditions will be remedied as soon as possible.

Victor Beaulieu was forced to pay a tax in 1903 when not legally assessed, being out of the city. He paid the tax, with the collector's costs, under protest. The board of civil authority had rebated the tax of \$7.15 but had not paid back the costs of \$1.85. The board voted to return the costs.

The last piece of business was the proposed sale of a parcel of land from the fire station lot, in the rear of the Congregational church, to that society to be used for an extension to the church building. The matter was brought before the board by Mayor Barclay and referred to the committee of the whole.

WILL GIVE
\$1 APIECEGranite Cutters Vote Aid to
Fall River Strikers.

MEETING LAST EVENING.

As There Are 1470 Members The Con-
tribution from This Union Alone
Will Be Nearly \$1500—Strikers'
Representative Tells Story.

Instead of donating the wages of one-half a day, as proposed by the Barre Central Labor Union, the local granite cutters' union will give one dollar per member for the aid of the striking mill operatives of Fall River, Mass. At a largely attended meeting held at the opera house last evening it was decided that this method of giving would be more equitable than that proposed by the Central Labor Union. There are now 1,470 members of the cutters' union alone, which will mean \$1,470 for the Fall River operatives. Besides this amount, it is expected that nearly every union in this city will vote similarly, which will bring the union contribution from Barre city alone up to over \$2,000. Previously various local unions have donated sums ranging from \$10 to \$50. Besides this, an individual subscription paper is being passed about the city, headed by a \$10 contribution from Mayor William Barclay.

The cutters' meeting opened last evening at 7 o'clock, with President Cruickshank in the chair, and it was 9 o'clock before the meeting adjourned. No opposition developed to the project to aid the Fall River union families but the method of giving was discussed fully, an agreement being reached as above stated.

Two of the striking Fall River operatives were present at the meeting.

They are Messrs. Moffitt and Foley, being part of a delegation sent out by the Fall River union to visit the union centers of the country. Mr. Moffitt told last evening the conditions that prevail in his city. He said that when the mill owners cut down the wages ten per cent and showed the company books to prove that the cut was necessary the operatives readily agreed to the reduction. It wasn't but a short time later that a further cut of twelve and one-half per cent was made and at this the operatives balked and went out on a strike. They have been out ever since, having been out a total of eighteen weeks.

Mr. Moffitt said that before the first cut down he and his wife were making between them something like \$12 or \$15 a week. They have five small children. At 4 a. m. each day they were obliged to get up and prepare a hasty breakfast for themselves and children. Before going to the mills they would have to take their children to the home of an elderly lady, to be cared for during the day. In the evening they went after their children and after preparing another hasty meal they hustled into bed.

Messrs. Moffitt and Foley have been about the country a good deal for their union. Their pay during these excursions is necessarily meagre, being barely enough to cover the actual expenses. In some cases they are forced to walk. They covered 24 miles by foot power, recently, in Pennsylvania. It is unnecessary to say that they are receiving excellent treatment in Barre.

Montpelier's Aid to Strikers.

Two other representatives of the United Textile Workers' Union of America, Walter J. Oden and George Gardner, are working in Montpelier and are meeting with fair success. At the meeting of the Montpelier granite cutters they explained the situation.

Instead of giving as a union the individual members will be called upon to sign a subscription paper. The paper is being circulated in that city by Angus McNeill and Fred Kerr. It is expected that as much as \$500 will be raised.

Hardwick union men are also subscribing and their contribution is expected to be nearly as large as that of Montpelier.

No Paper Tomorrow.

Tomorrow, Thanksgiving Day, being a legal holiday, no paper will be issued from this office.

"AT RETREAT."

Fascinating Little Play to Be Presented
at Hale's Pavilion Tomorrow Night.

At Hale's Pavilion Thanksgiving night. A very touching and dramatic incident of the close of the Civil War. This is a fascinating little play of thrilling interest—but there is a pleasant vein of humor running through the piece making a charming contrast to the affecting and passionate scenes. And the final climax never fails to bring an outburst of applause.

Cast: Col. Barlow, P. H. Brown, Philip (his son), Wm. H. McKurk; Corp. Youst, W. Scott; Pompey, John Nelson; Henrietta, Wm. Monahan; Mrs. Wainwright, Miss Margaret Rader; Dorothy, Miss Helen Brown.

Thanksgiving Wedding in Rutland.

Rutland, Nov. 23.—Miss Marion G. Engren, daughter of Mr. and Mrs. William L. Engren, and a member of one of the oldest families of Rutland, was married this morning at 9 o'clock at St. Peter's church to John L. Dempsey, assistant general freight agent of the Rutland railroad. Rev. T. J. Gaffney performed the ceremony.
